

GMT + 2	Friday 22/05	DAY 1	
9:00	Day Opening Notes		
9:10 - 10:30	Session 1	How to perform a normal gyn scan	
9:10 - 9:30	Lecture 1	How to perform a normal gyn scan	Ligita Jokubkiene
9:30 - 9:55	Lecture 2	3D ultrasound in the assessment of uterine malformations	Ligita Jokubkiene
9:55 - 10:10	Live scan	Patient 1. Vaginal, Abdominal, 3D	Ligita Jokubkiene
10:10 - 10:30	Discussion on the normal gyn scan essentials		Ligita Jokubkiene, Dirk Timmerman, Lil Valentin, Inessa Safonova, Juan Luis Alcázar
10:30 - 12:50	Session 2	How to scan the patient with adnexal mass using two-step strategy	
10:30 - 10:55	Lecture 3	Benign descriptors	Tom Bourne
10:55 - 11:15	Lecture 4	ADNEX model (rare tumours in younger patients included)	Dirk Timmerman
11:15 - 11:40	Lecture 5	Pattern recognition for making a specific diagnosis (rare masses)	Lil Valentin
11:40 - 12:05	Lecture 6	Tumor biomarkers	Dirk Timmerman
12:05 - 12:25	Live scan	Scanning the patient with adnexal mass (applying benign descriptors and ADNEX model on ultrasound machine)	Dirk Timmerman
12:25 - 12:40	Live scan		Tom Bourne
12:40 - 12:50	Discussion on the ways of scanning the patient with adnexal mass		Ligita Jokubkiene, Dirk Timmerman, Lil Valentin, Inessa Safonova, Juan Luis Alcázar, Tom Bourne
12:50 - 14:00	Lunch		
14:00 - 16:00	Session 3	How to scan patients with suspected endometriosis (+IDEA)	
14:00 - 14:25	Lecture 7	Atypical endometriomas	Inessa Safonova
14:25 - 14:50	Lecture 8	Deep endometriosis in the anterior and posterior compartments	Ligita Jokubkiene
14:50 - 15:15	Lecture 9	Superficial endometriosis	Juan Luis Alcázar
15:15 - 15:40	Lecture 10	Malignization in endometriosis	Lil Valentin
15:40 - 16:00	Live scan	Scanning patients with suspected endometriosis	Ligita Jokubkiene
16:00 - 16:20	Live scan	Scanning patients with suspected endometriosis	Lil Valentin
16:20 - 16:30	Discussion on the tips of scanning patients with suspected endometriosis		Ligita Jokubkiene, Dirk Timmerman, Lil Valentin, Inessa Safonova, Juan Luis Alcázar
16:30 - 17:00	Coffee - break		
17:00 - 18:00	Session 4	How to scan the patient with suspected ovarian cancer	
17:00 - 17:30	Lecture 11	Staging ovarian cancer by ultrasound	Juan Luis Alcázar

17:30 - 17:50	live scan	Scanning for staging purposes: transvaginal & abdominal US	Juan Luis Alcázar
17:50 - 18:00	Discussion on the tips of scanning the patient with suspected ovarian cancer		Ligita Jokubkiene, Dirk Timmerman, Lil Valentin, Inessa Safonova, Juan Luis Alcázar
18:00 - 18:10	Day 1 Closing Notes		
	23/05 Saturday	D A Y 2	
9:00 - 9:10	Day Opening Notes		
9:10 - 11:00	Session 1	Emergency and pelvic pain in gynecology	
9:10 - 9:35	Lecture 1	Ectopic pregnancy: both extrauterine and uterine	Inessa Safonova
9:35 - 10:00	Lecture 2	Adnexal torsion	Ligita Jokubkiene
10:00 - 10:25	Lecture 3	Ruptured Ovary	Inessa Safonova
10:25 - 10:50	Lecture 4	Non-gynecological pelvic masses	Juan Luis Alcázar
10:50 - 11:00	Discussion on pelvic pain in gynecology		Ligita Jokubkiene, Dirk Timmerman, Lil Valentin, Inessa Safonova, Juan Luis Alcázar
11:00 - 12:30	Session 2	Uterus	
11:00 - 11:30	Lecture 5	Typical and atypical uterine fibroids	Inessa Safonova
11:30 - 11:55	Lecture 6	Adenomyosis	Ligita Jokubkiene
11:55 - 12:20	Lecture 7	What to do with asymptomatic thickened endometrium and asy	Lil Valentin
12:20 - 12:40	Discussion on ultrasound of uterus		Ligita Jokubkiene, Dirk Timmerman, Lil Valentin, Inessa Safonova, Juan Luis Alcázar
12:40 - 13:40	Lunch		
13:40-15:40	Session 3	Adnexal masses	
13:40 - 14:05	Lecture 8	Common ovarian masses	Lil Valentin
14:05 - 14:30	Lecture 9	Adnexal pathology in pregnancy	Inessa Safonova
14:30 - 14:55	Lecture 10	Management of incidentally detected adnexal masses	Lil Valentin
14:55 - 15:20	Lecture 11	AI in adnexal masses using US	Juan Luis Alcázar
15:20 - 15:40	Discussion on adnexal masses ultrasound		Ligita Jokubkiene, Dirk Timmerman, Lil Valentin, Inessa Safonova, Juan Luis Alcázar
15:40 - 15:50	Day Closing Notes
